

193

CLASSIC

Twin twist counter top machine to produce soft ice cream and frozen yogurt.
A must have

Pump or gravity fed, the machine ensures great production results

High versatility

Give free space to your imagination and create cups as well as new soft delights and single portions

A cool look

The machine can be adapted to all types of shop thanks to its new modern panel

Overrun and consistency control

Different consistency control settings for various mix types and easy adjustable overrun

*Carpi Care kit: request it from your dealer to always keep your machine hygienically perfect.

carpigiani.com

The above dimensions refer to the air cooled version.
Water cooled model is without rear chimney

Optional configurations

Self-pasteurization

With our self-pasteurization system the machine can be cleaned and disassembled only 9 times per year

Teorema Remote Control

It gives very important info about the machine, it facilitates the service system and helps the cleaning schedule

Single portions dispensing head

With interchangeable nozzles to make single portions and delights

Self closing device

The dispensers close automatically stopping the flow of ice cream, eliminating any waste and preventing mess

Only You

Customize your machine with your colours and logo

Wash Kit

Optional tap above the tank to facilitate the cleaning operations

	Flavours	Mix Delivery System	Hourly production (75gr portions)	Tank Capacity lt	Cylinder Capacity lt	Nominal Power kW	Fuse Size A	Power Supply	Cooling System	Refrigerant	Net Weight kg

* production capacity depends on the mix used and the room temperature ** other voltages and cycles available upon request *** alternative solutions available

Features

Benefits

Two beater motors and separate cooling systems

The independent cylinders allow simultaneous production of different types of ice cream

Pressurized gear pumps (P model)

With POM gears, ensure the best ice cream texture, quality and high overrun, adjustable from 40% to 80%

Independent pump transmissions (P model)

Help to extend the pump and gears life and allow flexibility and maximum performance

Gravity fed system (G model)

Control valves naturally add air to the mix producing a firm and dry ice cream having an overrun up to 40%

Tank agitators

Prevent product stratification and help to reduce foam by maintaining a fluid consistency

Tank rubber lid

Light and handy. It facilitates the cleaning and filling operations

POM beaters

One piece POM beaters, easy to clean, for a firm and dry product. Ideal for frozen yogurt

Adjustable ice cream flow

Adjustable product flow to meet your specific dispensing speed and volume requirements

Direct expansion cooling cylinders

Optimize refrigeration efficiency for fast freeze downtime, less waste of product ensuring higher quality and energy saving

Defrost system

Possibility to heat the cylinders to simplify the cleaning procedure

Rear panel chimney (air cooled version)

Allows to optimize space and to place machines next to each other
